# AZHAGAR P

Front End Development Lead | React Native | Full-Stack JavaScript

Madurai, Tamil Nadu, India • azhagar333@gmail.com

## PROFESSIONAL SUMMARY

Front End Development Lead with 10 years of experience building mobile and web applications, and 12 apps published across the Play Store and App Store. Currently leading development of a React Native restaurant point-of-sale platform, with hands-on ownership of offline-first data sync, payment integration and kitchen printing. Comfortable across the stack, from React Native and React JS on the front end to Node.js REST APIs on the back end, and experienced in mentoring developers, running code reviews and delivering to deadlines.

## TECHNICAL SKILLS

**Mobile:** React Native, Redux (Thunk, Saga), Flutter, Ionic, Cordova, Java (Android)

**Web:** React JS, JavaScript, HTML, CSS

**Back end:** Node.js (REST APIs), MERN stack, PHP (REST APIs); working knowledge of Python and Java Spring Boot

**Data and messaging:** WatermelonDB, SQLite, MySQL, Firebase, MQTT

**Integrations:** Datacap payments, push notifications, kitchen and receipt printers, third-party REST APIs

**Tools:** Git, GitHub, Bitbucket, SourceTree, Jira, Android Studio

## PROFESSIONAL EXPERIENCE

### Front End Development Lead
March 2023 – Present

*Magilhub India Pvt Ltd, Madurai, Tamil Nadu*

- Lead front-end development of the company's React Native merchant point-of-sale app, used by restaurants for orders, billing and payments.
- Built the app's offline mode on an offline-first architecture with WatermelonDB local storage and background sync, so outlets keep trading without an internet connection.
- Integrated Datacap payment processing into the point-of-sale checkout flow.
- Implemented kitchen order ticket (KOT) printing, routing tickets to the correct kitchen-station printers over MQTT and push notifications.
- Led the upgrade of the app from React Native 0.62 to 0.82.
- Mentor junior developers, run code reviews, lead production troubleshooting, and own code quality and delivery deadlines for the front-end team.

### Senior Programmer
July 2022 – February 2023

*Jeev.ai Pvt Ltd, Bengaluru, Karnataka*

- Architected and developed WINI, an app that assists clinicians and helps reduce clinical errors.
- Secured user data and integrated the app with external APIs.
- Designed a user-friendly, accessible interface for clinical users.

### App Developer
March 2020 – July 2022

*NGB Tech Solutions, Coimbatore, Tamil Nadu*

- Architected and developed Mybuddys, a social networking app focused on simplicity and accessibility.
- Built multimedia content sharing and ensured secure handling of user data.

### App Developer
June 2017 – February 2020

*KSM Pixel Solution, Madurai, Tamil Nadu*

- Delivered commercial and entertainment apps including OPR Support, Cricket Alpha and AKFC.
- Owned project architecture, external API integration and performance improvements.
- Carried out unit testing and bug fixing through to release.

### App Developer
March 2017 – June 2017

*Malar Institute of Technology, Tirunelveli, Tamil Nadu*

- Developed What's Book, a real-time text chat app, with secure data handling and a simple interface.

### Java Program Trainee
June 2016 – January 2017

*Skyverse Media Inc, Koramangala, Bengaluru*

- Developed the Picky Back shopping app using Java and C#, working alongside senior team members.
- Reproduced reported errors and developed fixes.

## EDUCATION

### B.E. Electrical and Electronics Engineering
2012 – 2016

*PET Engineering College, Vallioor, Tirunelveli*
